Wisner Associates offers one of the largest range of metal and plastic manufacturing processes in the industry, from one part to one billion parts. Our Engineers can help you make your design efficient to manufacture. We are dedicated to providing you the most productive technologies in the industry, including **ISO 9001 certified off-shore manufacturing facilities.**

Let the Wisner Associates Team help you to find the right process and manufacturer for your requirements.

**Faster to Market** – use the most effective process for your design.

**Efficient Build** – use the most efficient process to reduce machining, fixturing, assembly, and handling costs.

**Higher Quality Parts** – use the best process to increase quality and repeatability.

**CALL , FAX, OR E-MAIL  
YOUR SPECIFICATIONS FOR A**

## PROTOTYPING

- Rapid Prototyping (3-Day) SLA & SLS
- CNC & EDM Quick Turn Machining
- Metal Castings From SLA Pattern
- Sheet Metal & Fabrication
- Urethane & Silicon Casting
- Spin Casting

## METALS

- Die Casting in Aluminum, Magnesium, and Zinc Alloy
- Forgings—Open & Closed Die
- Rubber Plaster Mold
- Production Multi-Axis Machining
- Sheetmetal & Fabrication
- Metal Injection Molding (MIM)
- Powdered Metal
- Investment Casting
- Permanent Mold
- Sand Casting
- Extrusions, Aluminum

## PLASTICS

- Micro Molding & Lead Frame
- Plastic Injection Molding
- Vacuum Molding & Thermal Forming
- Reaction Injection Molding (RIM)
- Rubber-Silicon Compression Molding
- Overlays, Touch & Keypad Systems
